C/RC-One crankcase  
cover

**5717217**

**€ 131.50**

The range of Malossi engine crankcases now welcomes a new and precious addition: **Air Force**, the new engine crankcase compatible with C-One, RC-One and the original Piaggio extended crankcase.

It's called **Air Force** because its strength lies in the ability of simultaneously allowing entry of a **greater mass of air, channelling it precisely on the transmission components** and increasing the engine's capacity for hot-air extraction. The advantage that comes with this combined ability is a significant reduction in the temperature of the Over Range compartment and consequently, **improved stability and endurance of the transmission**.

Designed for die-casting, thanks to its structure, Air Force **considerably increases the mechanical resistance of the whole assembly**, providing an accurate and dynamic driving experience.

Lastly, its internal conformation frees up **all the space needed in the back area** for the clutch bell, significantly increasing the volume available for the transmission gear while also **greatly reducing the lateral dimensions** compared to the standard engine crankcase.

**For Malossi C-ONE / R-C ONE CRANKCASE: 5715844 - 5716654 - 5715845 - 5716668**
