

NEW

Complete cylinders I-TECH 4 STROKE PIAGGIO i GET 50 4T

The new complete cylinders equipped with CDI!

The *Injtronic* engine control unit is the natural evolution of the original Piaggio system and enhances vehicle performance. The latest generation 32 bit microprocessor and hardware designed according to the most recent automotive quality standards make up the RACING DNA of this device. Designed to be plug & play, in other words compatible with the original sensors and actuators, the control unit only needs simple throttle calibration to synchronize the engine electronic control system.

The calibrations and fine-tuning allow for a definite increase in engine performance and the synergy with the new Malossi cylinder, designed to preserve the original mechanical and fluid-dynamic balance, increases the torque at all engine RPM, without compromising the mechanical reliability, guaranteeing a performance never before achieved by this vehicle.

Complete cylinder I-TECH 4 STROKE

- Material: primary aluminium alloy with a high content of hardened and tempered silicon, cylinder liner with silicon carbide coating in a galvanic nickel die and crossed smoothing with two diamond passages with very limited tolerances.
- Machining: on machine tools with high precision numerical control.
- Cylinder-piston connection with an allowance of 0.05 mm.
- Recalculated and upgraded heat exchange surfaces.

NEW

3117471

€ 390.00

CDI Injtronic

- Carburation adjusting
- RPM limiter : 10.000 RPM

Piston

- Ultra compact with 3 rings.
- Material: special aluminium alloy with high silicon content, low thermal expansion and a tin facing on the sliding surfaces.
- Machining on machine tools with numerical control.
- Lightened and reinforced.
- Upgraded heat exchange surfaces.

Piston rings

- Special rings with high sliding ease and very high mechanical resistance.
- I° ring compression in nitrided and chromium steel.
- II° special cast iron ring.
- Three piece scraper ring made of chromiumplated special steel alloy.

Table of applications

The models listed in the chart here below may have a different **THROTTLE BODY**, depending on the year of production/ country where they are sold. Thus, they need a special cylinder equipped with cdi. When placing your order, please check the following identification numbers: country, frame number and engine number.

In case of countries which are not mentioned into below chart, you'll have to check the origin of the vehicle.

MODEL	COUNTRY	FRAME NUMBER	ENGINE NUMBER	Complete cylinders I-TECH 4 Stroke
