

## GP MHR REPLICA 4-Stroke homologated exhaust system

Beautiful! Technologically perfect:

with their strong character and such an aggressive shape, they give a touch of "High-Class" to the maxi scooter enhancing it in a superlative way. Thanks to the great development of Malossi technical staff (utilizing the most upto- dated labs) and to the extensive racing experience, Malossi wanted to make a significant difference by incorporating the following design requirements to the new **GP MHR REPLICA** exhaust system: innovative look, performance, lightness, reliability and **QUALITY**.

### Technical details

- European homologation
- Elliptical cross-section casing made of stainless steel or aluminium with anodized finish and laser marked logo.
- Carbon end caps.
- Silencer system with the addition of sound absorbing mineral fibers, possessing high noise damping and nondegrading qualities.
- Equipped with DB killer
- Stainless steel exhaust tubes from the cylinder or to the silencer.

The final assembly utilizes stainless steel riveted clamps producing a sealing area of exceptional mechanical strength in turn eliminating any exhaust gas leakage.

The **GP MHR REPLICA** Exhaust Systems come complete with all the necessary mounting hardware and gaskets.

**WITH NUMBER 9** Homologation that respects the limits for sound level requested by the European Directive 97/24 chapter 9 annex III

**WITH NUMBER 9 - 5** Homologation that respects the limits for sound level and air pollution requested by the European Directive 97/24 chapter 9 annex III and chapter 5 annex VII

**(\*) ATTENTION:** THE "TYPE" ONLY SPECIFIES THE MODEL IN WHICH HOMOLOGATION WAS VALIDATED. THIS DOES NOT LIMIT THE INSTALLATION.

# HOMOLOGATED MHR REPLICA EXHAUST SYSTEM

The new range of MHR REPLICA exhaust systems has been studied by CAD systems and defined for all types of 50cc scooters and moto. The engineers at Malossi R&D Department have improved the vehicle's performance according to laws and regulations, after strict testing with sophisticated and modern equipment at Malossi's test department. The MHR REPLICA exhaust systems address a sporting and demanding customer; they personalize your scooter with elegance and with a "performance sound", completing the thermodynamic cycle of the famous Malossi MHR REPLICA cylinder kit.

## TECHNICAL FEATURES:

**EXHAUST** in special sheet steel (1 mm thickness) manufactured using robotic T.I.G. and M.I.G. welding of cone sections. The exhaust feature silencing baffles, aluminium alloy mounting brackets with vibration isolators. Clear-coat finish.

**SILENCER** in aluminium, cast endcaps and repackable.

## GP MHR for MOTO

"The Racing Exhaust developed on the racetrack for the racetrack".

It is one of the essential components intended for **MALOSSI trophy**, studied especially to increase the power of the engine at medium and high regimes.

The Malossi Trophies are raced in all the world according to precise rules that require different Special Malossi Racing products for each category. This insures an optimum and homogeneous result for the various participants while utilizing the most advanced technologies.

With the **MHR** exhaust systems Malossi expands its range of trophy exhaust systems, that represents the highest performances in the sector. Another Malossi' initiative which provides an opportunity for the young to participate in a two-wheeled sport and become the riders of the future.

### TECHNICAL FEATURES:

- **EXHAUST** in special sheet steel (0.8/0.10 mm thickness) manufactured using robotic T.I.G. and M.I.G. welding and manual torch welding with oxy-acetaline, artiginally peened. Clear coat finish.
- **SILENCER** in aluminum with satin finish.
